CONTENTS

Symposium B&PM/A—Benchmarking and Performance Measurement/Assessment

B&PM/A.01 *Sandcasting Lead-Time Prediction Model*—Dr. Robert C. Creese, PE CCE, Rao Atluri, and Naveen Rammohan

B&PM/A.02 *Facilities Management Benchmarks: Lessons Learned*—G. Allan Engebretson, CCC, and Bryan Skokan, CCE

B&PM/A.03 *Metalcasting Benchmarking*—Dr. Robert C. Creese, PE CCE, Rao Atluri, and Naveen Rammohan

B&PM/A.04 *Using a Coding System to Improve Benchmarking*—Finn H. Sandberg

Symposium CC—Cost Control

CC.01 *Design Phase Cost Control*—James A. Young III, CCC

CC.02 *Can Government Contracting Be Reengineered?*—Larry G. Medley Sr., CCC

CC.03 *Privatization: A Closer Look*—Terry Tyborowski, Michelle Primack, and Keliy Matthews

CC.05 *Cost Management of Refurbishment Projects*—Nicolaas Duursema, CCE

Symposium C&C—Contracts & Claims

C&C.01 *Construction Claims Preparation Under ADR*—Douglas A. Findley, CCC

C&C.02 *Resolution of Disputes: The Next Generation*—James G. Zack Jr.

C&C.03 *Construction Defects Claims Analysis and Mitigation*—Neil D. Opfer, CCE

C&C.04 *Evaluating Best Value Contract Proposals*—Dr. Douglas D. Gransberg, PE

C&C.06 *Change-Order Management*—Bob M. McCally

C&C.07 *How to Lose Money Negotiating a Construction Claim*—Michael R. Just, CCE, and Brian Torone

C&C.08 *Lump-Sum Contract Performance-Singapore Experience*—Dr. Surinder Singh

Symposium D&RM—Decision & Risk Management

D&RM/A.02 *A Realistic Approach to Risk*—Ian B. Parr

D&RM/A.04 *Risk and Capital Budgeting*—Reza Amirkhalili

D&RM/A.05 *A Cost-Effective Maintenance Program Through Risk Analysis*—Tusar Bandyopadhyay, Prasanta K. Dey, and Saumitro S. Gupta

D&RM/A.06 *Risk Assessment and Contingency Estimating*—Dr. Osama Moselhi, PE

Symposium ENV—Environmental/Hazardous Waste

ENV.01 *Thermal Treatment of PCB-Contaminated Soils*—William E. Gallagher, PE, and Thomas C. Ponder Jr., PE CCE

ENV.02 *Environmental Site Project Controls*—Edward E. Douglas III, CCC

ENV.03 *Planning an Industrial Sewer Compliance Program*—Michael R. Sens and H. Dennis Kopp

ENV.04 *PHA/PHM Compliance Services*—John P. Klim, PE CCE

Symposium EST—Estimating

EST.01 *Estimating? Past, Present, and 21st Century*—Kul B. Uppal, PE

EST.03 *Estimating Costs With Fuzzy Logic*—Anthony K. Mason, PE, and Donald J. Kahn Sr.

EST.04 *Scope Development Problems in Estimating*—Larry R. Dysert, CCC

EST.05 *The Cost Engineer as a Partner in Process Design*—Dr. Maarten S. A. Vrijland and Steven G. J. Boeschoten

EST.07 *Creation of a Cost Index and Forecasting Methodology for Process/Heavy Civil Engineering*—Dr. Nashwan Dawood and William Bates

EST.08 *Construction Estimating and Bidding Strategy*—Joseph A. Brown, CCE

EST.09 *Workhour Estimation for the Construction of Tanks*—Jayant Kumar B. Shukla and P. Giridhar

Symposium HF/OM—Human Factors/Organizational Management

HF/OM.01 *Project Teams: The Role of the Project Office*—Quentin W. Fleming and Joel M. Koppelman

HF/OM.02 *On Becoming a "Change Master" Change Management for Creating Innovative, Competitive Environments*—Dr. Deborah S. Kezsbom

HF/OM.03 *Five Core Competencies of Cost Engineering*—Bernard A. Pietlock, CCC

HF/OM.05 *Empowered Team-Based Project Management in Developing Countries*—Nicoline Boshoff and Pierre M. van Zyl

HF/OM.06 *AACE Certification-Twenty Years of Progress*—Barry G. McMillan

Symposium IM—Information Management

IM.01 *Estimating Archiving Costs for Engineering Records*—Roger Alan Stutz, CCE

IM.02 *EDI System Aids Cost Management*—Walter J. Strutt, PE CCE

IM.04 *Executive Reporting System*—Jeffrey C. Christiansen

IM.05 *Single-Entry Online Progress Measurement*—Walter J. Strutt, PE CCE

IM.06 *Building a Cost Engineering Data Warehouse*—Keith G. Decker, Anthony J. Oaks, and Max Salinas

Symposium INT—International Project & Cost Management

INT.01 *Cost Comparison of Pacific Rim Countries*—John G. McConville, CCC

INT.02 *Inter-American Construction Costs*—Leopoldo G. Varela, CCE, and Roger J. Grant

INT.03 *Cost Estimating Challenges Facing Eastern Europe*—Richard A. Selg, CCE

INT.04 *1996 Japanese Chemical Plant Cost Trends*—Yoshimi Saito

INT.05 *The JASA (Japanese/American System Approach) of Planning and Scheduling*—Roy Singh, CCE

Symposium IT—Information Technology

IT.01 *Scope Definition Is a Company Affair*—Douglas McCue

IT.03 *ALPCS-Project Control at Allegheny Ludlum*—Lawrence Barkowski, CCE

IT.05 *Tools of the Trade: Advances in Cost Control and Schedule Management for Commercial Construction*—Robert B. McCullough, PE CCE

IT.06 *Innovative Infrastructure Innovation: A Vision for the 21st Century*—Dr. Manar Shami and Mustapha Janneh

Symposium PC—Project Control

PC.01 *Beyond Project Controls-The Quality Improvement Approach*—Michael G. Sypsomos

PC.02 *The Cost of Chasing Unrealistic Project Schedules*—Christopher F. Michalak

PC.05 *Developing a New Project Execution Model*—Gudmund Vigerust, CCC

PC.07 *Use of Statistical Control Charts in Construction*—Satinder S. Baweja, CCE

Symposium PM—Project Management

PM.01 *Winning a Project Approval*—Mark T. Chen, PE CCE

PM.02 *Life Cycle Project Management*—Dr. Douglas D. Gransberg, PE, and Michael A. Ellicott, PE

PM.04 *Optimizing the Storage Capacity of Trades*—Dr. Iqbal Noor, PE CCE, and Ram Dabadghav, PE CC

Symposium PROF—Profitability

PROF.01 *Reduce Corporate Taxes by Optimizing Depreciation*—Mark M. Weiner, CCE

Symposium P&S—Planning & Scheduling

P&S.01 *Resource Loading in a Multiproject Environment*—Jim W. Short, CCC

P&S.02 *Practical Applications of Probabilistic Scheduling*—Dr. Gui Ponce de Leon, PE, and John R. Knoke, PE

P&S.03 *Optimized Scheduling for Highway Construction*—Khaled El-Rayes and Dr. Osama Moselhi, PE

P&S.04 *Project Scheduling Under Limited Resources*—Mohammed Moizuddin and Dr. Shokri Z. Selim

Symposium VE&C—Value Engineering & Constructability

VE&C.01 *Value Engineering During the Project Execution Phase*—Dr. George F. Jergeas, P.Eng., and Vernon G. Cooke

VE&C.02 *The Antidote to Value Engineering Phobia*—Farid Fam Mansour, PE CCE, and Allen James Hulshizer, PE

VE&C.04 *Benefits of Value Engineering Criteria Studies*—Douglas N. Mitten, PE CCE

VE&C.05 *Requirements for Cost-Effective Systems*—Farhad Azimzadeh, PE, and Dr. Enno Koehn, PE
